## Reasons to choose Autocross:

- It can work with different types of materials: fabrics, corrugated plastics, clear foil, PVC banners ...
- Adjustable cutting pressure.
- Adjustable eyelet closing pressure, even on thin fabrics material will not roll.
- Laser pointer for accurate setting.
- Operator safety first: if any of the security devices are removed, machine will not work showing a warning light.
- Powerful engine (1 HP) with transmission belt. Extremely easy to unblock when operator sets one

- eyelet over another.
- Being electrical means fast cycles, up to 50 eyelets per minute.
- Easy maintenance.
- Eyelet spacer so all of them are set to the same distance.
- Available for:
  - Ø08 mm clear plastic eyelet.
  - Ø12 mm clear plastic eyelet.
  - Ø12 mm steel nickel plated eyelet.
  - Ø12 mm brass nickel plated eyelet.
