

METALIK - REMOVABLE

With a both sides matching mirror look finish and colour, Metalik Removable is ideal for creating eye-catching window displays. The removable adhesive is suitable for short-term decoration. With larger areas or wherever it is more convenient, the film can be wet applied.

WHY CHOOSE US?

KernowJet Metalik films are designed to fulfil all requirements of the Sign and Wide-Format Printing industry. KernowJet Metalik can be applied or laminated manually or mechanically, with wet or dry application techniques. Applied to perfectly smooth substrates like glass, the films have a mirror look finish. On demand, we can create specific metallized colours in different shades, for example metallic red, blue, and green. Imagination is your only limit.

Metalik®

FEATURES

- Same colour effect on both sides
- Removable adhesive, perfect for wet-application
- Cuts perfectly, weeds easily
- Very smooth finish, close to mirror effect
- Corrosion free for outdoor durability
- Silver film up to 3 years outdoor use without fade, Gold & Rose Gold 1 year outdoor use
