KernowJet Interiors Smooth Cream
Adhesive Nonwoven Wallcovering
P160WCMR

Introducing our revolutionary smooth cream adhesive-based printable wallpaper, designed with the needs of dynamic spaces in mind. What sets this product apart is its non-permanent adhesive, making it the perfect solution for environments that undergo frequent changes. Whether you want to update the look of your office, retail space, or even your home, this versatile wallpaper allows for easy application, removal, and repositioning without leaving any residue or damage. The smooth cream finish adds a touch of elegance to any interior, while the adhesive ensures a secure and bubble-free installation. With our smooth cream adhesive-based printable wallpaper, you have the freedom to transform your space as often as you like, embracing endless possibilities for creativity and style.
